

Shaping the future for an inclusive and transparent society

Are you a citizen, public officer, academic or business that implements or participates in e-government projects?
Are you interested in:

- 1/ Offering inclusive and transparent Public Services to citizens?
- 2/ Co-creating Public Services?
- 3/ Engaging stakeholders?

inGOV applies new Inclusive Governance Models and ICT Tools for Integrated Public Service Co-Creation in four countries.

Austria

Digitalization of the tourism overnight stay tax service

Greece

Digitalization of the issuing and renewal procedure of the disabled citizens discount cards for public transportation

Croatia

Creating an AI-driven mobile virtual assistant and a common public services platform for the citizens.

Malta

Modernization and integration of the digital common household unit public service in Malta.

Co-creation in e-governance

Shaping the future for an inclusive and transparent society
